

Writing

Directions: For this part, you are allowed 30 minutes to write **an essay** that begins with the sentence "To increase the likelihood of success, one should set realistic goals and work persistently towards them." You can make comments, cite examples or use your personal experiences to develop your essay. You should write at least 150 words but no more than 200 words. You should copy the sentence given in quotes at the beginning of your essay.

1 To increase the likelihood of success, one should set realistic goals and work persistently towards them. In the contemporary world, success has become increasingly significant. It's of great necessity for youngsters to set realistic goals and work persistently. Reasons and concrete evidence to support my view point are as follows.

2

1 To increase the likelihood of success, one should set realistic goals and work persistently towards them. In the contemporary world, success has become increasingly significant. In modern society, success has gained critical significance, making it imperative for youngsters to set realistic goals and work persistently. Reasons and concrete evidence to support my view point are as follows.

2 First of all, it's obvious that realistic goals provide clear direction and motivation. Based on analysis of big data, most successful individuals admitted that they've spent a big part of their time planning and refining their objectives. Moreover, no one can deny that persistently is the key to overcoming challenges. Where there is a persistence, there is a success. Last but not least, I firmly believe that persistence fosters resilience and long-term success. The more effort you put into your goals, the more rewarding the results will be.

3 In conclusion, setting realistic goals and persisting through challenges are indispensable for success. If we spare no efforts to stay focused and determined, the future of our endeavors will be both hopeful and rosy.

- 三个段落

- 第一段 两句话 引出背景（点题）+ 过渡
- 第二段 六句话 三个论点 + 三个论据
- 第三段 两句话 重申观点 + 提出希望

- 第一段

- In the contemporary world, have/has become increasingly significant. It's of great necessity for to .
 - 当今世界，...（主题词）已经变得越来越重要。对于某类人来说，做某些事非常的有必要。

- 3 In conclusion, ____ . If we spare no efforts to ____ , the future of ____ will be both hopeful and rosy.

Translation

遨游太空历来是中华民族的梦想。2003 年，神舟五号飞船发射成功，杨利伟成为第一个飞入太空的中国宇航员。2008 年，神舟七号升空，翟志刚成为中国历史上首位进行太空行走的宇航员。近年来，中国航天进入创新发展“快车道”，太空基础设施建设稳步推进，中国空间站于 2022 年全面建成。中国航天事业的迅速发展在中华民族的历史上写下了辉煌一页，也为人类文明进步做出了巨大贡献。未来，中国探索太空的脚步将迈得更稳、更远。

- 1 Space travelling has always been the dream of the Chinese nation. In 2003, with the successful launch of the Shenzhou 5th space ship, Liwei-Yang became the first Chinese astronaut flying into the space. In 2008, the Shenzhou 7th space ship was launched, Zhigang-Zhai became the first spaceman in Chinese history walking in the space. In recent years, China Aerospace went into the "fast way" of innovative development. The construction of space infrastructure pushed forward steadily. Chinese space station constructed completely in 2022. The boom of China's space industry not only wrote a glorious page in the Chinese nation, but made a giant contribution with the human nation. In future, Chinese steps in exploring space will more stable and far away.

- The Chinese Nation
- this made sb. sth. 这使得某人成为...

- 1 This made Zhigang-Zhai the first astronaut to walk in the space in Chinese history.

1 The rapid development of Chinese industry has written down a glorious page in Chinese history, and made significant contributions to the advancement of human civilization.

1 In future, the step of China to explore the space will stablier and further.

洋山港(Yangshan Port)是上海航运中心的重要组成部分，是中国第一个深水港，也是世界上规模最大的深水港之一。经过近 20 年的发展，洋山港已实现高度自动化。数字技术和人工智能的使用大大减少了 用工成本和碳排放。自主研发的码头管理系统可以在百公里之外对大型设备进行远程操控。洋山港看上 去一片繁忙，现场却见不到人工操作，而且能够 24 小时不间断运作。洋山港将不断发展、为把上海建成一 个全球航运中心做出更大贡献。

1 The Yangshan Port is the significant part of ShangHai shipping center, the first deep port in China, and one of the largest in the world. With almost 20 years development, the Yangshan Port has achieved highly automation. The use of digital technology and artificial intelligence reduce a lot of employee cost and Carbon pollution. The independently developed port management system can remotely control large equipments at a hundreds of kilometers away. The Yangshan Port looks like very busy without human operaton on the scene, and works uninterrupted in 24 hours. The Yangshan Port will continue to develop, and make more contribution to the goal that construct ShangHai as a global shipping center.

1 The Yangshan Port is an important component of Shanghai Shipping Center, is the first deep-water port, and is one of the deep-water ports with the largest scale in the world as well. After the development of near 2 decades has realized high-level automation. The use of digital technology and artificail intelligence has greatly reduced labour cost and carbon emission. The self-developed port management system can remotely control the large-scale equipments as far as hundreds of kilometers away. Yangshan Port looks busy, while no manual operation can be seen on the site. It runs 24/7. Yangshan Port will continuesly develop, and make greater contributions for building Shanghai as a global shipping center.

- and ... as well 也
- labour cost 用工成本
- carbon emission 碳排放
- 24/7 全天候 24 小时不间断
